- Address project team through facilitator.
- Questions to relate to project at hand only.
- Opportunities for seeking clarification at end of the presentations.
- Identify yourself (name and presentation) before asking a question.
- Meeting closing time.
- Cell phones off, please.
- Complete attendance register.
- Ablution facilities, and emergency exit.

Contents
- Introduction
- Process followed thus far:
  - NEMA Application Form.
  - Scoping Phase.
  - Role of I&APs.
  - Public participation.
- Process to still be followed:
  - EIA Phase.
  - Specialist studies.
  - Public participation.

INTRODUCTION
- Sasol Mining (Pty) Ltd is an existing coal mining company situated in close proximity to Secunda.
- Mining Right No (Impumelelo): MP30/5/1/2/3/2/1(138) EM.
- Sasol Mining (Pty) Ltd supplies coal to Sasol Synfuels, which utilises various processes and beneficiates coal into a number of products such as petrol, diesel, plastics and various chemicals.
- The Impumelelo Mine was recently developed (previously known as Block 2) and will replace the Brandspruit Mine Operation.

PROJECT BACKGROUND
- Sasol Mining is the holder of the Prospecting Rights of several additional areas surrounding and within the approved Impumelelo Mine Area.
- These areas are collectively referred to as the proposed Impumelelo Mine Extension.
- The target mineral is coal from the Number 2 Seam and Number 4 Seam (specifically 4 Seam for new areas).
- The coal will be extracted via the existing Impumelelo Mine infrastructure and transported via the existing conveyor to Sasol Coal Supply blending plant.
- No additional surface infrastructure is associated with the proposed project.
ENVIRONMENTAL AUTHORISATION PROCESS

Role of I&APs

- Individuals who may be influenced, positively or negatively, by the proposed Impumelelo Mine Extension Project.
- Registration forms are available if you have not yet registered.
Process followed thus far: Public Participation

- Newspaper adverts:
  - The Ridge Times

Process still to be followed: Scoping Phase

- Authorities meeting.
- Finalise Scoping Report based on public comment received.
- Submit Final Scoping Report to DMR for approval, and place for public review.

Process followed thus far: Public Participation

- On-site notices were placed at 14 sites surrounding the proposed Impumelelo Mine Extension Project area.

Process to still be followed: EIA Phase

- An amended EIA and EMPr will be compiled for the additional areas, as well as the existing Impumelelo Mine in terms of the requirements of Appendices 3 and 4 of the EIA Regulation R982 (2014).
- Incorporate specialist studies and Authority and public comments into the amended EIA and EMPr.
- A revised IWWMP and IWULA will be compiled in terms of the NWA.

Identified Specialist studies
